Policy for Maintaining a Plastic-Free, Clean, and Green Campus**Introduction**

Late Bhimrao Chavhan Arts & Science College, Chavahanvadi, is committed to fostering an environmentally responsible and sustainable campus. In alignment with our mission to nurture an eco-friendly environment, this policy aims to minimize plastic usage, maintain cleanliness, and enhance the green cover on the campus. This initiative is not only a step toward environmental conservation but also a means to inculcate a sense of responsibility in students and staff toward sustainable practices.

Objectives:

Promote awareness among students and staff about the environmental impact of plastic and the importance of a clean and green campus.

Encourage the reduction of single-use plastic items and promote the use of eco-friendly alternatives.

Ensure regular cleanliness drives and proper waste management practices across the campus.

Sustain and enhance the green cover through regular tree plantation drives and garden maintenance.

Implement and enforce practices that contribute to a plastic-free, clean, and green campus through regular monitoring and community involvement.

The Practice:

To ensure the effective implementation of this policy, the college prepares and circulates an annual circular, which is prominently displayed on the notice board. The circular outlines the guidelines and practices to be followed by all members of the college community. These include:

Plastic-Free Initiatives: The use of single-use plastics is strictly prohibited. Alternative eco-friendly materials are encouraged, and awareness programs are conducted to educate the campus community about the harms of plastic.

Clean Campus Drives: Regular cleanliness drives are organized to maintain the campus's hygiene. Proper waste disposal systems are in place, and the campus is regularly monitored to ensure cleanliness.

Green Campus Initiatives: The college conducts regular tree plantation drives and maintains the existing green spaces. The campus community is encouraged to participate in these activities to enhance the green cover.

Monitoring and Evaluation: The implementation of these practices is regularly monitored, and feedback is sought to improve the effectiveness of the policy.

Outcomes:

Increased Environmental Awareness: Students and staff become more conscious of their environmental impact, leading to more responsible behavior.

Reduction in Plastic Waste: Significant reduction in plastic waste generated on campus due to the adoption of eco-friendly alternatives.

Cleaner Campus Environment: Regular cleanliness drives result in a well-maintained and hygienic campus.

Enhanced Green Cover: The campus becomes greener, contributing to better air quality and providing a pleasant environment for the college community.

Sustained Environmental Practices: The regular monitoring and evaluation ensure that the practices are sustained and improved over time.

Conclusion:

Late Bhimrao Chavhan Arts & Science College, Chavhanvadi, is dedicated to maintaining a plastic-free, clean, and green campus. Through this policy, we aim to create a sustainable environment that reflects our commitment to environmental stewardship. By engaging the entire campus community, we hope to inspire a collective responsibility towards preserving and protecting our environment for future.
